

CHLORENERGY®

Dietary Chlorella Supplement

Why Chlorenegy® ?

One of the reasons why health food stores nation-wide/overseas (small to large) and doctors/nutrition experts select **Chlorenegy** (dietary chlorella supplement) over other regular/mediocre is just because **Chlorenegy** simply provides them with the highest quality available in today's most advanced chlorella open-culture/production technology provided by the chlorella specialist named CIC. Chlorella Industry Co. Ltd. (CIC) in Japan. They boast of themselves having the world's longest chlorella culture/production history since 1964.

Almost 45 years of the expertise made Chlorenegy a superb product second to none. **Chlorenegy** is also the world's most researched chlorella...Astounding amount of research (540 research/studies supporting the **Chlorenegy** product...from 1964 through 2008). **Chlorenegy** is being manufactured at CIC's GMP-JHNFA certified factory, and is made in Japan.

Chlorenegy® The Best Green Whole Food...

People need greens everyday, all kinds of deep-green vegetables. **Chlorenegy** is a dietary chlorella supplement (60% high-quality proteins), the concept of which is to provide health-conscious people with the condensed form of those deep-green vegetables taken in an instant...(300 tabs and 1500 tabs) Chlorella (vulgaris: Ck-strain) is known as a complete food by itself providing us with the balanced nutrition. **Chlorenegy** has 16 vitamins, 14 minerals, 4-dietary fibers, chlorophyll (a & b), carotenoids (beta-carotene, lutein, etc.), proteins, plus CVE (chlorella vulgaris extract: CGF-Plus) which is one of the powerful components of **Chlorenegy**. **Chlorenegy** has quite a balanced amino-acids profile, essential and non-essential ones. Chlorella is considered as a king of all alkaline foods.

Chlorenegy® is 100% natural deep-green alga.

Try **Chlorenegy** today ! This pure 100% natural chlorella tablets provides you with all the good things found in deep-green vegetables, plus the important nutritional component of CVE (CGF-Plus). **Chlorenegy** is produced with no binders.....no excipients of any kind...Pure 100% Vegetarian nutrition for all !

DEMAND THE BEST & STRONGEST COQ10 EVER! (Not all COQ10 products are created equal)

What is Q10-ENERGY™ (Ubiquinol).....

C'est Si Bon's Super-Ultra Formula™ Q10-ENERGY™ is made of Ubiquinol (pre-converted form of Coenzyme Q10). CoQ10 is a fat-soluble, essential quinone molecule found in nearly every cell, tissue, and organ in the body. While commercially available COQ10 generally refers to Ubiquinone, which is oxidized form of COQ10, Ubiquinol is reduced form (pre-converted). "Reduced" describes the gain of electrons by a molecule, atom or ion, thus Q10-ENERGY™ considered to be the most potent lipid soluble antioxidant available in today's supplement market. With this amazing breakthrough, Q10-ENERGY™ is readily absorbed into intestinal tracts. More than 90% of the COQ10 in the blood of healthy humans exists in this Ubiquinol form. Q10-ENERGY™ is trade name of Ubiquinol, one of C'est Si Bon Company's products.

Who needs Q10-ENERGY™ (Ubiquinol) and why.....

For more than 20 years, CoQ10 (as Ubiquinone - oxidized form of CoQ10) has been taken as a supplement. As we age, however, we become incapable in synthesizing it properly in our cellular metabolic activity. Now, thanks to one of the most advanced technologies of Kaneka Corp. of Japan, Q10-ENERGY™ (Ubiquinol in pre-converted active antioxidant form) has made its great debut with fanfare in order to efficiently perform production and storage of Adenosine Triphosphate or ATP (your body's primary fuel) at cellular mitochondria. More than 95% of ATP in our body is produced in the mitochondria. Q10-ENERGY™ is the first stabilized form of bio-identical ubiquinol ever developed in history. Ubiquinol, when compared with regular Ubiquinone products, is reported to have roughly 8 times more potency in increasing blood CoQ10 levels. Individuals with cardiovascular, neurological and liver-related diseases, as well as Type-2 diabetes, have been shown to have suppressed levels of Ubiquinol in their plasma. Q10-ENERGY™ may help to replenish COQ10 levels in the body reduced by use of statins and/or beta-blockers.

As we get older, our cellular metabolic functions are impaired gradually, sometimes, all of a sudden. For your healthier and vibrant quality of life, especially people over 40 years of age, baby boomers and elderly people, men or women, may need improved cellular functions by using highly bio-absorbable and bio-available pre-converted form of Ubiquinol. For your sustained natural energy, ingest Q10-ENERGY™ for your cellular power plant (mitochondria), and get energized! (*)

Q10-ENERGY™ Ubiquinol

Amazing
Breakthrough!

"Supports
heart functions
and
cellular metabolism"

Supplemental Facts	
Serving Size: 1 Softgel	
Amount Per Softgel	%DV
Ubiquinol (Reduced Form CoQ10, Kaneka QH™)	50mg *
*Daily Value not established	

Other Ingredients: Canola oil, Diglycerol monooleate, Beeswax, and Non-GMO soy lecithin. Softgel consists of Gelatin, Glycerol and Caramel color.

Allergen statement: Contains Soy.

Ultimate antioxidant for optimal cellular activities

- Ubiquinol: Pre-converted form of Coenzyme Q10 for optimum absorbability and bio-availability
- For healthy ATP production and storage at mitochondria
- For healthy fat, glucose, protein metabolism
- For sustained natural energy and vitality

Kaneka QH™ is a trademark of Kaneka Corporation
